WORK/EDUCATIONAL SEMINAR EXPERIENCE

Grupo Agrolibano

San Lorenzo, Valle, Honduras

Administration Intern,

July 2025

- Completed an end-to-end operational internship at Honduras's second largest melon exporters, a diversified agricultural company specializing in melon, exporting tropical fruit, seafood, timber, and plant products, gaining direct experience to both field-level operations and corporate administration
- Participated in the full melon-cultivation cycle, from understanding field work to managerial and administrative functions, developing a comprehensive understanding of supply chain and production workflows
- Supported administrative operations within the company's management team, handling organizational tasks, participating in meetings, and contributing to the coordination of daily business activities
- Participated in meetings with B2B clients and shipping companies to understand contract fulfillment and navigate complex logistics and problem solving around limited freight options and long transit times to ensure goods reach their destinations

Andbank

Miami, FL

Wealth Management Intern,

July 2024

- Executed and processed over \$1M in client transactions while analyzing different portfolios, gaining hands-on exposure to asset allocation, risk-reward dynamics of different asset types, and the process of portfolio construction and management
- Conducted research on equities, fixed income, and mutual funds that are recommended by the wealth management team, including analysis of earning reports of relevant portfolio companies to support investment decision-making
- Prepared and distributed daily market briefs to clients and internal company members, synthesizing daily market movements and relevant financial data into concise communications to team members and clients
- Participated in direct calls with fund managers, gaining exposure to asset management discussions

Wealth Management Educational Seminar

July 2023

- Participated in a wealth management seminar covering financial markets, portfolio management, risk control, and global macroeconomics, building foundational finance knowledge under a professional setting
- Analyzed investment opportunities and supported portfolio management, learning directly from the investment department team

Private Wealth Advisors

Remote

Finance Educational Seminar,

July 2021

- Delivered weekly equity presentations with buy/hold/sell recommendation on companies including Microsoft, Johnson & Johnson, JP Morgan, and Chevron, incorporating fundamental & technical analysis alongside broader market updates
- Conducted daily stock analysis and financial reviews of multiple companies, developing a structured approach to evaluating equity performance and company financials
- Competed in a stock market simulation alongside other students, practicing real investment decision under real market conditions

Extracurricular

Research & Asset Management Academy

Pittsburgh, PA

Mentee,

January 2026 - Present

- Selected from a pool of 30+ applicants through a rigorous interview process focused on technical competency and behavioral assessment, a campus organization dedicated to preparing members for careers in investment banking, private equity, and asset management
- Engage in an extensive curriculum covering Private Equity, Hedge Funds, and Credit Research through weekly lectures, one-on-one mentorship necessary to develop the analytical framework required for buy-side and sell-side roles.
- Hands-on training in value investing, three statement financial modeling, and LBO modeling, reinforcing technical skills applicable to finance roles
